Dr. Zelig,

I have added links to specific discovery for ease of access in your email below. Mr. Udell's deposition is attached.

Mr. Hitchcock-Lopez:

I would like to be able to visualize the scene better. Any pictures or diagrams showing the distribution of shell casings and the distances between the outer gates, point of engagement, and the building would be helpful. I would like to see the autopsy reports, including pictures and toxicology reports. Autopsy and tox reports are in the full [NCIS File](#) at pages 240-259 [bates NAVY 4676-4695]. This document is bookmarked and OCR searchable for ease of reference, and is a good overview of what happened. Autopsy photos are in discovery at VB 1817-2074 available [here](#). Detailed scene photos are in the same folder at VB 2085-2270. There are more scene photographs (some of them are duplicates) available [here](#). There is a [3D Flyover](#) of the Detachment which gives a good sense of the scene as well.

The depositions of Becky Vinberg and Bradley Odell might also be helpful. Was his mother, Donna, deposed. Udell Depo attached. There also a [transcript](#) of an interview he gave to NCIS investigators immediately after the shooting.

Do you happen to have a map that shows the relationship between Donna's house and the Detachment? [Trooper Report](#) contains Donna Vinberg's address, the address of the Detachment is 4200 Spruce Cape Road, Kodiak, Alaska, as described in the [Trooper Report](#) detailing Jayson's death.

If the complaint for divorce is not an exhibit in Becky's deposition could you also sent that. All of the divorce paperwork and communications should be available in discovery [here](#).

Do you know if Jayson was aware, or saw a copy of the divorce papers -- the ones filed three days before his death.

Are there any materials that Dr. Ornish failed to consider that are relevant? e.g., the text messages? I would recommend watching the surveillance footage. The shooting video is [here](#). You will need to use the proprietary player, which is included in the folder. I would also recommend watching [this video](#), which shows Vinberg and Udell interacting before the shooting. Because of the camera angle, it is not as useful as it might be, but I still think it is worth a through review.

Early next week works for me. Do you any specific discovery you need me to send over to facilitate your review?

Mr. Hitchcock-Lopez:

I have read the psychiatric analysis -- I am still looking into the other discovery. Do you want to talk today -- or would early next week be okay -- which would give me the opportunity to review more of the file. Your choice.

Dr. Zelig,

Have you had a chance to do your initial review on the project? My apologies for not checking in earlier. I also want to get you access to the discovery. Is this the email address you would like me to use to grant access?

Best,

Dylan L. Hitchcock-Lopez
